Box No. VIII	Certain observations on th	he international :	application
--------------	----------------------------	--------------------	-------------

The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description, are made:

1. Claim 24 lacks clarity.

Claim 24 defines 'Use of a <u>mutli</u>-metal-nitrogen compound ...'

Perhaps if it defined 'Use of a multi' It may clarify this issue.
